Thanks Ex. 6 Personal Privacy (PP).

This is the same one that you already shared with us.

Here is another one.

Please tally up the HOF cases and let's discuss at our next management meeting.

Ex. 6 Personal Privacy (PP)

Guardian submitted P-20-0181 on September 11, 2020. According to EPA's website, the scoping meeting occurred on October 20, 2020. After a discussion with Ex. 6 Personal Privacy (PP) regarding the potential health concerns that OPPT might

express in a health report, Guardian prepared an additional explanation of its view that health risk would be minimal; this document was submitted February 2, 2021.

Guardian understands how overworked the New Chemicals Division's health assessors are. If a completed health report is not forthcoming because of other obligations, Guardian would very much like to discuss the health assessor's view of the updated health explanation so that Guardian can address any concerns that remain.

Please advise if Guardian can schedule a teleconference with the PMN review team (especially the health assessor) or when Guardian can expect a health report.
